

Range Usage and Time Limits for Public Shoot

- Time limit is 30 minutes of shooting and 15 minutes set up/take down, which will be enforced when people are waiting.
- When people are *not* waiting, the time limit is a maximum of 1 hour (shooting time) per lane.
- Whenever possible, shooters shall be given a 10 minute notification that their time is nearly up.
- Ten minutes of shooting time shall be added *for each additional person* on a lane (maximum of three people to a lane).
- Use of a lane by 3 people will only be allowed if the shooters are determined to be experienced shooters by RSO staff.
- If two people are shooting and a third person wishes to observe, they will still be charged the \$10 fee assuming they will be observing from the range floor.
- In the event someone wishes to observe from the windows or instructor's bay, an RSO should escort them to the area and there will be no charge for viewing.
